It looks good to me.

I placed a call to a Scott Borne, the POC for Texas Brine at the Site, and left a message. I'll continue to try to make contact, however I believe the office may be shut down due to Hurricane Isaac. If necessary we will just contact the corporate office in Houston.

Subject: Bayou Corne Gas Emissions and Sinkhole revised draft AOC

Hello Greg and Lance,

Attached below is the revised a draft AOC for the Bayou Corne Gas Emissions and Sinkhole Site. Please review and provide your comments by tomorrow. Some of the changes already made in the revised draft AOC include:

1. Inclusion of the CERCLA hazardous substances released or threatened to be released at the Site;
2. Clarification of Pam's verbal declaration concerning the Site's need for a removal action assessment;

9544055

3. Inclusion of the estimated costs of the removal work to be performed;
4. Modification of the scope of the removal assessment work, and inclusion of the SOW (Greg - just to clarify; let me know if the SOW you sent is what is needed/intended to be attached to the revised AOC - thanks).
5. Inclusion of the dollar amount for insurance;
6. Inclusion of a dollar amount for financial assurance; and
7. Inclusion of a Site Sill/ID No. and a CERCLA Docket No.

Lance, I will need to get the contact name and title (preferably the person who can sign the AOC - if the contact person is different from the person who can sign the AOC, secure both names and titles) and address for the PRP from you. That information will be included in the AOC.

After your review and comments, I will send the revised AOC to our paralegal for finalization to send to the PRP. Thanks.

George Malone, III
